

5 Steps of HOW TO HOST A CROSSPLAY MINECRAFT SERVER

CHOOSE A MINECRAFT SERVER HOSTING SERVICE

Choose from a variety of hosting providers depending on your budget, desired player capacity and ease of use.

.....

INSTALL THE SERVER SOFTWARE

Follow your provider's instructions for setting up the server.

.....

INSTALL GEYSERMC

This can be done manually through FTP access or using your hosting provider's control panel.

.....

CONFIGURE GEYSERMC

Adjust aspects like the port for Bedrock players to connect on and authentication methods.

.....

START YOUR SERVER AND SHARE THE ADDRESS

With everything configured, start your server and obtain your hosting provider's server address.

.....
