

CAN I HOST A PS4 ARK SERVER ON PC?

1

MAIN POINT

No, you can't directly host a PS4 ARK server on a PC.

2

WHY NOT?

1. Different Architectures:
PS4 and PC systems operate differently.
2. Lack of Official Support:
No official way to host PS4 servers on PC.

3

ALTERNATIVES

1. **PS4 Dedicated Server:**
Use a separate PS4 console to host the game.
2. **PC Hosting Services:**
Use services like Nitrado to host servers compatible with PS4 players.

CONCLUSION

While you can't host a PS4 ARK server directly on a PC, using a dedicated PS4 or PC hosting service offers customizable and reliable options for a better gaming experience.
